INTRODUCTION

Policies, Procedures, and Regulations

Conference policies, procedures, and regulations are hereby established to unify the administration of athletic contests among member schools.

A Conference Procedure may be changed at any regular or special meeting of the Athletic Directors Committee by a majority vote of the total committee.

Procedures and regulations governing conference athletic contests shall be established by the Athletic Directors Committee prior to the start of each sports season.

CCC MISSION STATEMENT

The Central Connecticut Conference mission is to maximize the educational and athletic opportunities of its student-athletes. The CCC will enhance the quality of our student-athletes' high school experience by promoting:

1. A broad array of interscholastic competitions and championships.
2. Diversity and mutual trust among its member schools.
3. Sportsmanship and integrity at all levels of interaction.
4. Leadership Training for student-athletes, coaches, athletic administrators and academic administrators.
5. The establishment of unifying policies that fairly represent all member institutions.
6. The scheduling of athletic contests
7. An economic partnership that aids member school in meeting budgetary demands in a fiscally responsible manner.

Concepts for CCC Strategic Plan

1. The CCC will continue to offer and expand where possible, the array of conference championships offered.

This will be accomplished by:

- a.) Maintaining conference schedules in a manner that promotes student-athlete safety as its primary concern.
 - b.) Eliciting sponsorships that will help defray the cost of running each championship.
2. The CCC will develop and sponsor a leadership education course for its student-athletes.
 3. The CCC will sponsor the 45 hour Coaching Course Training for non-educators.
 4. The CCC will sponsor coaching modules through its member institutions for its coaches.

CCC Action Plan

1. A committee will be formed to explore corporate sponsorships for the CCC conference.
2. The Conference will explore having a vendor sell T-Shirts at CCC events.
3. A committee will be formed to develop an on-line captain's leadership course.
4. The CCC will continue to support the 45 hour Coaching Education Course. This program is overseen by Trish Witkin.
5. The CCC will continue to support the concept of coaching modules being offered by member schools for other member school's coaches. This program is currently overseen by Directors of Athletics within the conference.

ADMISSION

MEMBER SCHOOLS SHALL DETERMINE ADMISSION CHARGES FOR THEIR HOME ATHLETIC CONTESTS.

COACHES/PLAYERS EJECTION RULE

COACHES EJECTION RULE

The Central Connecticut Conference shall adhere to the CIAC policy on the ejection of a coach.

“When a member coach is disqualified during a contest for unsportsmanlike conduct, that coach shall be prohibited by his/her school from coaching or attending a contest until the next contest at that level of play has occurred.” (CIAC)

In addition, the Central Connecticut Conference rule states that when a member schools’ coach is ejected from a contest for an infraction as prescribed by the rules, the contest may not continue until the member school replaces the ejected coach with a certified coach. If this cannot be accomplished within fifteen (15) minutes after the ejection, the official in charge will declare a forfeit for the opposing team(s).

No sub-varsity contest shall be terminated in order to replace a varsity coach who has been ejected.

PLAYER EJECTION RULE

The Central Connecticut Conference shall adhere to the CIAC policy on ejection of a student-athlete.

“When a student is disqualified during a contest for flagrant and/or unsportsmanlike conduct, the student is ineligible to participate in any contest until withheld from the next contest at that level of play.” (CIAC)

The CIAC rules for both coaches and students continue...

Failure of the school for any reason to enforce this regulation will prohibit the school from entry in the next CIAC tournament for that sport or from the remainder of the current tournament if the disqualification occurs during a CIAC tournament or during the last season contest/day of competition.

Disqualifications from one season carry over to the next season in that sport for undergraduates and coaches, or the season of participation in any sport for seniors.

If the playing rules for a sport specify an additional penalty, the additional penalty will apply.

Rule It is not the intent of this rule to penalize those participants who are disqualified from events for minor infractions, such as lane violations in track, multiple false starts, etc. Any attempt to breach or circumvent the spirit and intent of this rule shall be construed as a serious violation of coaching ethics.

Student Notification Prior to the start of the season the players will be informed of the Central Connecticut Conference (CCC) ejection rule pertaining to fighting/unsportsmanlike conduct and dangerous play.

Coaches Responsibilities When a player is ejected from a contest:

1. The player will remain under the supervision of the coach. It is recommended that the player be removed from the playing site only if there is adequate supervision.
2. The coach must report any such player ejection to the Athletic Director/Faculty Manager at the earliest possible time but no later than the next school day following the contest in which the fighting/unsportsmanlike conduct ejection occurred.
3. The coach will insure that the ejected player will not participate in the next contest. A player ejected shall not play in any varsity or sub-varsity contest prior to and including the next scheduled contest at that level of competition. For example, a freshman football player is ejected in a Friday freshman game. He will then not be permitted to play in or dress for the varsity game on Saturday or the junior varsity game on Monday until he sits out the next game at the level of ejection. In this case it will mean the next freshman football game.
4. A player ejected will not play at any level for the remainder of the day. For example, a junior varsity basketball player is ejected. The player then will not be permitted to play in or dress for the varsity game the same day.
5. A player ejected from a contest involving more than two teams (i.e. wrestling quad meet) will sit out all contests for the remainder of the day plus the first contest that follows.
6. The ejection is in effect for post-season play.

Administrative Procedure Following a fighting/unsportsmanlike conduct ejection, the Athletic Director of the reporting school will:

1. First contact, by phone, the Athletic Director of the school(s) involved including the next opponent.
2. Contact, in writing, the other Athletic Director of the school(s) involved including the next opponent.
3. The AD/FM of the offending school should notify his/her building principal of the suspended player.
4. Contact in writing the CCC Commissioner.
5. Contact, in writing, the Athletic Director of the next scheduled contest providing him/her the name of the suspended player.

Protest Procedure Protests pertaining to this rule must follow protest procedures as outlined in the CCC Policies and Regulations Manual.

- F. If a multi-meet/event is scheduled at a particular school and that host team drops the sport, the following will occur: "The original host school or the remaining schools will call the Conference Commissioner who will decide the new home site by the flip of a coin or some other method." (A.D. Committee 12-3-92).
- G. See "Scheduling Guidelines", appendix A.

SENIOR NIGHT ACTIVITY LEAGUE GUIDELINES

The purpose of any senior contest activity is to recognize those student-athletes who have committed themselves to your program and are playing their final regular season home contest. The activity should not take away from the contest for the rest of the students, opposing players and fans. Many Athletic Directors feel that senior activities have grown too big, too expensive, become too lengthy for the opposing team, and takes away from the actual contest. In an effort to keep the programs balanced, the Central Connecticut Conference has endorsed guidelines for senior night recognition activities.

Games must start on the time it is scheduled. Please schedule your pre-game time for senior announcements to accommodate this. (Activities should be taken care of prior to the match or if possible at the conclusion of the match.) It is the responsibility of the home school to address this appropriately.

1. Each team must have a minimum of 5 minute warm-up after a senior recognition ceremony before the start of the game (reminder- game must start on time)
2. All senior activities must be approved by either the Athletic Director or site Director prior to the contest.
3. ***The opposing team and officials must be notified that you will be holding a senior night activity prior to the contest.

SPRING TRIPS

Teams participating in spring trips must declare their plans by the October Athletic Director's meeting and must notify the Athletic Directors' of the opposing school(s) to make immediate re-scheduling arrangements. (Adopted 12/3/09)

SPORTSMANSHIP CODE AND CROWD CONTROL

PREAMBLE – This code is introduced to maintain the high standard of athletic activities in the Central Connecticut Conference. Compliance with the code instills the sound educational philosophy of our athletic programs among member schools.

The Principal's Responsibility

The ultimate responsibility for crowd control and behavior lies with the principal. Game arrangements and details vary and are usually delegated to Directors of Athletics, Faculty Managers, and coaches. This, however, does not eliminate the principal's responsibility. Ideally, the school administration should be represented at all home athletic contests by a member of the administrative staff. Organized athletics are part of the school curriculum and warrant the supervision given any other school function.

The Coaches Responsibility

It is the responsibility of the coach to make certain that his/her players conduct themselves in such a fashion as not to incite the spectators. A coach sets the tone and example for his/her players and for the spectators. Therefore, they shall not indulge in emotional behavior and loud, derisive questioning of decisions made by the officials. Coaches who cannot maintain their self-control will be ineffective with regard to interceding in the event that their players behave in an unsportsmanlike manner.

Security

Adequate security must be present at all home contests in sufficient numbers to maintain control. The amount and type of security will depend of the estimated size of the crowd and the rivalry involved.

Many cases of disorder can be prevented by removing obvious troublemakers before the individuals have an opportunity to create an incident.

Irresponsible behavior, drinking, and gambling are not allowed at any high school contest.

It is the responsibility of the host school to see that there is adequate supervision (security or faculty) of the parking areas used in conjunction with sporting events, particularly with regard to the visiting team buses.

Specific Guidelines for Crowd Control

1. On an annual basis, schools should make their student bodies aware of the importance of good spectator behavior.
2. Derogatory statements concerning any team should not be made to news media by any school official. (This includes comments on officiating).
3. Barriers for athletic fields should be provided around the playing areas to keep crowds back since standees are more likely to cause trouble than people who are seated.
4. Upon request of the visiting team a security escort should be provided for team members and departing spectator buses.
5. Visiting chaperones are responsible for the conduct and supervision of groups under their charge.
6. It is recommended that principals and athletic directors of competing schools keep each other informed as to potential problems.
7. ***Banners, signs, confetti or noisemakers (to include radios and tape players) are not permitted in the possession of spectators. Exceptions to this rule shall be made by the host school.***
8. Sportsmanship statement to be read at all basketball games(see suggestion below):

TO BE READ BY A HOME TEAM CAPTAIN:

“WELCOME TO TONIGHT’S GAME BETWEEN THE (HOME SCHOOL AND NICKNAME) AND THE (OPPOSING SCHOOL AND NICKNAME). WE VIEW OUR GYM AS AN EXTENSION OF OUR CLASSROOM ENVIRONMENT WHERE WE LEARN DIGNITY AND RESPECT FOR OTHERS. TONIGHT WE ASK FOR YOUR ENTHUSIASTIC, POSITIVE SUPPORT OF YOUR RESPECTIVE TEAM.”

TO BE READ BY A VISITING TEAM CAPTAIN:

“WE ALSO ASK THAT YOU SUPPORT THE STUDENT-ATHLETES FROM BOTH SCHOOLS BY HONORING OUR REQUEST TO TREAT ALL OF THE ATHLETES, COACHES, AND OFFICIALS WITH RESPECT. THANK YOU.”

SWIMMING AND DIVING (Girls)
Procedures and Regulations

- A. All contests shall be governed by High School Federation Rules where applicable and/or as amended by the Connecticut Interscholastic Athletic Conference and the Central Connecticut Conference. "If the host team has an illegal diving facility, it is the host team's responsibility to obtain an alternate diving site. If this is not done, the thirteen (13) diving points will be awarded on a forfeiture basis to the opposing team." If a school is unable to secure an alternate diving facility, they may send a letter to their competing schools informing them that they do not have a diving team due to their lack of facility. This letter must be sent two weeks prior to the competition or a date that is set by the league. If this procedure is followed, no diving points are to be awarded at a home or away contest.
- B. A legible meet result sheet for swimming and diving shall be used for all dual meets. The meet sheet should include the first and last name of all individual competitors and the last name for all relay competitors. Host and visiting schools will email a copy of meet results to all CCC schools who they compete during the season. These results should be provided within a timely manner (24 to 48 hours).
- C. Individual shall be limited to competition in four events as follows: Either two (2) individual events and two (2) relays or one (1) individual event and three (3) relays.
- D. Non-CCC teams of one may compete as non-scoring members in CCC meets.
- E. Meets will be held on Tuesdays and Fridays or as site availability permits. (October, 1992 Revision Committee).
- F. Starting time will be no later than 3:45p.m. except where non-school pools are used or there is mutual consent of the involved coaches.
- G. All teams will meet each other once within the same division. There are three crossovers.
- H. Eight open dates – three to be committed to interdivisional meets.
- I. Selection of 42 all division swimmers/divers must be based on merit and a total season's effort. While post-season divisional meets are allowed, they should be looked upon as just one other variable for making selection choices and not the sole basis. All conference teams will be determined prior to the CCC Dinner Meeting.
- J. **Conference Meet Guidelines:**
 - a. Meet will follow a timed finals format. Twelve places will be scored where top 3 swimmers and 1 relay from each team will be allowed to score. Number of entries per team will be determined by host team and be contingent to facility, time constraints, size of teams. Although this may vary throughout divisions, the number of places and participants scoring will remain consistent throughout divisions.
 - b. Divers could choose to do a 6-dive or 11-dive list. For each diver, 6 dives will be scored for the meet. Each team is still limited to entering 5 divers with a maximum of 3 scoring for each team. Divers competing with 11 dives will be asked to submit an additional diving sheet. This sheet will have 6 dives from their 11-dive sheet and will be used to determine a score which will be used in the meet results. These 6 dives must follow the 6-dive dual meet format. This means that the first dive listed is the required dive for the week and the other 5 dives must be from at least 4 different categories. The diving order will be chosen randomly. Divers competing with only 6 dives will be finished after their 6th dive. The remaining divers will take a 5 minute break and then continue on with their final 5 dives. The required dive for the diving championship will be required dive for the week that the meet is held in. Diving forms are due 30 minutes before the start of the diving competition.
 - c. The meet will be scored consistently between divisions, but will have no bearing on the overall divisional champion. A meet champion only will be determined. This is to be consistent with other sports that have divisional championships.
 - d. **Participation of 1 and 2 person teams at the Conference Divisional Championships will be allowed whether or not the school they are from is a CCC school or not. The swimmers/divers on 1 and 2 person teams will swim in the same divisional meet as the team they practice and participate with (swimming or diving).**

All-Conference Selection Process:

1. An individual is limited to being selected All-Conference in at most 2 relays and 2 individual events or in 3 relays and 1 individual event.
2. In each of the 4 divisions, the top 2 relays in each relay event and the top 2 swimmers and divers in each individual event will be designated All-Conference.
3. The 2 divers in each division will be chosen by adding up each diver's best dual meet score, state divisional meet score and state open score. The divers with the 2 highest totals in each division will be designated All-Conference.

4. In each of the 4 divisions, the relays and the swimmers in each individual event will be chosen by examining best dual meet times, state divisional prelims and finals times and state open times. In each division, the 2 relays in each relay event and the 2 swimmers in each individual event with the best times will be designated All-Conference.

SWIMMING AND DIVING (Boys)

Procedures and Regulations

- A. All contests shall be governed by High School Federation Rules where applicable and/or as amended by the Connecticut Interscholastic Athletic Conference and the Central Connecticut Conference. "If the host team has an illegal diving facility, it is the host team's responsibility to obtain an alternate diving site. If this is not done, the thirteen (13) diving points will be awarded on a forfeiture basis to the opposing team." If a school is unable to secure an alternate diving facility, they may send a letter to their competing schools informing them that they do not have a diving team due to their lack of facility. This letter must be sent two weeks prior to the competition or a date that is set by the league. If this procedure is followed, no diving points are to be awarded at a home or away contest.
- B. A legible meet result sheet for swimming and diving shall be used for all dual meets. The meet sheet should include the first and last name of all individual competitors and the last name for all relay competitors. Host and visiting schools will email a copy of meet results to all CCC schools who they compete during the season. These results should be provided within a timely manner (24 to 48 hours).
- C. Individual shall be limited to competition in four events as follows: Either two (2) individual events and two (2) relays or one (1) individual event and three (3) relays.
- D. Non-CCC teams of one may compete as non-scoring members in CCC meets.
- E. Meets will be held on Tuesdays and Fridays or as site availability permits. (October, 1992 Revision Committee).
- F. Starting time will be no later than 3:45p.m. except where non-school pools are used or there is mutual consent of the involved coaches.
- G. All teams will meet each other once within the same division. There are three crossovers.
- H. Eight open dates – three to be committed to interdivisional meets.
- I. Selection of 42 all division swimmers/divers must be based on merit and a total season's effort. While post-season divisional meets are allowed, they should be looked upon as just one other variable for making selection choices and not the sole basis. All conference teams will be determined prior to the CCC Dinner Meeting.
- J. **Conference Meet Guidelines:**
 - a. Meet will follow a timed finals format. Twelve places will be scored where top 3 swimmers and 1 relay from each team will be allowed to score. Number of entries per team will be determined by host team and be contingent to facility, time constraints, size of teams. Although this may vary throughout divisions, the number of places and participants scoring will remain consistent throughout divisions.
 - b. Divers could choose to do a 6-dive or 11-dive list. For each diver, 6 dives will be scored for the meet. Each team is still limited to entering 5 divers with a maximum of 3 scoring for each team. Divers competing with 11 dives will be asked to submit an additional diving sheet. This sheet will have 6 dives from their 11-dive sheet and will be used to determine a score which will be used in the meet results. These 6 dives must follow the 6-dive dual meet format. This means that the first dive listed is the required dive for the week and the other 5 dives must be from at least 4 different categories. The diving order will be chosen randomly. Divers competing with only 6 dives will be finished after their 6th dive. The remaining divers will take a 5 minute break and then continue on with their final 5 dives. The required dive for the diving championship will be required dive for the week that the meet is held in. Diving forms are due 30 minutes before the start of the diving competition.
 - c. The meet will be scored consistently between divisions, but will have no bearing on the overall divisional champion. A meet champion only will be determined. This is to be consistent with other sports that have divisional championships.
 - d. **Participation of 1 and 2 person teams at the Conference Divisional Championships will be allowed whether or not the school they are from is a CCC school or not. The swimmers/divers on 1 and 2 person teams will swim in the same divisional meet as the team they practice and participate with (swimming or diving).**

All-Conference Selection Process:

1. An individual is limited to being selected All-Conference in at most 2 relays and 2 individual events or in 3 relays and 1 individual event.
2. In each of the 4 divisions, the top 2 relays in each relay event and the top 2 swimmers and divers in each individual event will be designated All-Conference.

3. The 2 divers in each division will be chosen by adding up each diver's best dual meet score, state divisional meet score and state open score. The divers with the 2 highest totals in each division will be designated All-Conference.
4. In each of the 4 divisions, the relays and the swimmers in each individual event will be chosen by examining best dual meet times, state divisional prelims and finals times and state open times. In each division, the 2 relays in each relay event and the 2 swimmers in each individual event with the best times will be designated All-Conference.

APPENDIX A - GUIDELINES FOR SCHEDULING

1. It should be understood that one of the purposes of establishing the conference is to facilitate the scheduling process for member schools. The Conference will schedule regional crossover matches in all sports.
2. Interdivisional matches will be determined based on records in divisional play in the previous two seasons. A two year rotation for the regional crossover matches will be established. The rankings will be determined at the conclusion of each sports' season in the years in which a new cycle is to be developed and the schedules for regional crossover play shall be established no later than the date of the policy meeting following the close of a sport season in that year. The number and placement in the schedule of regional crossover matches will be established as per guidelines of individual sports.
3. The Web Master shall have the responsibility of preparing sport schedules for each of the conference-sanctioned sports in all regions.
4. Schedules shall be established on a "rotate and reverse" basis *whenever possible* over a two-year period. This indicates that the host school will play away the following year. In general when boy's teams are scheduled at homes, girl's teams will be away and vice versa in sports in which both genders compete in the same season. Provision shall be made to permit a last season date for traditional rivalries. Conference schedule date/times may be changed by mutual agreement of competing schools. (October 1992 Revision Committee)
5. When two (2) teams in football only, are tied based on winning percentage, ties will be broken by the male enrollment as listed by the CIAC. (Dec. 2009 revision)
6. Sub varsity games will be scheduled at the same site and date as the varsity except where facilities do not allow. The conference will schedule sub varsity contests in football, and soccer and freshman contests in football, soccer, basketball and baseball/softball. If a host team cannot accommodate a sub varsity contest at the same site, they are responsible for agreeing to an alternate date and/or site. Schools which do not have sub varsity or freshman teams in a given sport must notify the webmaster prior to the establishment of the schedules.
7. The host team shall establish the time and day for weekend varsity competition, Friday, or Saturday contests. Conference schools shall attempt to accept the starting times for all competition to the extent that starting times do not conflict with established policies or educational interests of the visiting schools. Starting times will be indicated on all approved conference schedules.
8. All members must accommodate local rulings regarding holidays (i.e. Martin Luther King Day, Yom Kippur, Rosh Hashanah, etc.)
9. Afternoon competition (Monday-Friday) will generally begin at 3:45 p.m. (after daylight saving no later than 3:00 p.m.).
10. In establishing matchups for interdivisional contests, the following guidelines will be used.
 - a. *Whenever possible* teams will be paired against teams from each of the other regions that are ranked no more than one place above or below them. Possible exceptions are noted in (b), (f) and (g) below.
 - b. The conference will schedule regional crossover matches between each of the three Hartford Schools in all sports as determined by individual sport guidelines. This may result in pairings that do not conform to guideline (a) above.
 - c. The conference will ensure that schools that share facilities for a sport are not both scheduled at home or both away on the same date.
 - d. If there is a bye in a specific sport, the placement of the bye will rotate on a six year cycle and will change every two years. The bye will be placed in the 6th position for the first two-year cycle, the 4th position for the second two-year cycle and in the 2nd position for the third two-year cycle.
 - e. If there are byes in two divisions, the bye teams will be paired against each other unless such pairings violate CIAC game limitations for the schools involved.
 - f. In sports in which there are less than eleven teams in a region, regional crossovers may result in pairings that do not conform to guideline (a) above.
 - g. In sports where multiple teams may compete in a single event such as cross country, track and golf, the regional crossovers may be scheduled as tri- or quad- events. In such cases the host teams will be rotated in as equitable a way as possible. Multiple team events may occasionally result in pairings that do not conform to guideline (a) above.
 - h. Teams that share a facility will be scheduled so that only one is home on each playing date.
 - i. Limit 2 teams moving up or down.
 - j. Tie Breaker for identical record will be 1) head to head, 2) record in most recently completed year, 3) enrollment.
 - k. Starting with 2011 schedule, lock in the schedule for two years. Add one year's record for placement consideration to a maximum of four years from that point forward.

11. The following sport specified guidelines will be followed in relationships to:
 - a. Day of Contest
 - b. Starting Time
 - c. Divisional Play
 - d. Number of Open Dates
 - e. Interdivisional Play
 - f. Non-Varsity Play

Procedures for scheduling cross over games

At the conclusion of each two year cycle all teams will be ranked within their region based on their combined regional records for the year just completed and the previous year.

The tie breakers shall be as follows:

1. Head to head in the year just completed
2. Divisional record in the year just completed
3. Head to head over the two year period
4. Overall record
5. By lot

The following steps will then be followed to create the cross over schedule

1. If there are two crossover games in a sport, all teams that are ranked in the same position will be scheduled to play each other.
2. If there is one crossover game scheduled in a sport, the divisional matchups will be rotated with one pairing changing each year.
3. If there are more than two crossover games in a sport the pairings for additional games shall be 1 vs. 2, 3 vs. 4, 5 vs. 6 and 7 vs. 8. Regional matchups will be determined so that each team has an equal number of home games and will be rotated whenever possible.
4. After all teams are placed on the schedule, it will be checked to ensure that each of the Hartford schools is scheduled to play each of the other Hartford schools. If it is necessary to move games to arrange this, every effort will be made to ensure that the resulting matches' pair teams no more than one ranking higher or lower.
5. The schedule will be balanced to ensure an equal number of home and away games for each team. This may occasionally require a pairing that does not meet the requirements of #1 above. This may also mean that it may occasionally be necessary to schedule two teams to play at the same site two years in a row in order to assure home and away equity in a season.
6. In football, teams that play divisional games on Thanksgiving will require one additional crossover game. To schedule these crossover games, it will usually be necessary to cross divisions. No division III team will be scheduled to play a division I team. Pairings will be made to ensure an equal number of home and away games for each team.

(Pilot scheduling used for Soccer, G. Volleyball, Baseball, Softball and B. golf for 2016-17)
